## Application Developers

We have an excellent opportunity for Application Developers to join our emerging private company based in the ACT. We are looking for energetic and enthusiastic individuals who can understand and adapt to the evolution in mobile and wireless communication technology.

You must have excellent interpersonal skills, work well in a team, keen capacity to deliver, work to project deliverables and a desire to progress to more senior developer roles.

This fantastic opportunity involves working on projects that will enable us to improve and enhance existing applications and develop new applications as technology and demand evolves.

If you are a person looking to enhance your skills and experience in cutting edge technology then we are interested in talking to you.

### Requirements:

- 1 year working in a software development role
- Working knowledge of Java/J2EE (or the proven ability to cross over)
- .NET experience would be an advantage
- Sound knowledge and experience in web development
- Working knowledge of Linux
- Knowledge of Perl
- Working knowledge of Microsoft Office
- General aptitude for problem solving
- Ability to learn new technologies rapidly
- Sound working knowledge of mobile phones and mobile phone technologies (WAP, GPRS, CDMA etc)
- Excellent written and oral communication skills
